

## **2016 Annual MFFC Montana Fishing Trip**

The annual MFFC adventure to Yellowstone Park is up to THREE weeks this year.

Week #1 is Saturday 7-30 to Saturday 8-6.

Week #2 is Saturday 8-6 to Saturday 8-13

Week #3 is Saturday 8-13 to Saturday 8-20.

There are a couple of available spots but time is flying by and if you are interested get in touch with me right away

Joyce and I are making some plans to expand and update the trip for next year so stay tuned for updates on that situation. We are hoping to find a place that is very favorable for couples and we are hoping to offer one week for couples only followed by a couple of weeks open for singles and couples too. So watch for the updates this fall.

As in years past we are planning on a night in Cooke City during each week so folks can fish the Lamar River, Soda Butte and Slough Creek. Dinner in Cooke City is always a fun evening and the scenery there is just breathtaking. An interesting fact about Cooke City is that during the winter the only way into Cooke City is through Yellowstone Park and the road to Cooke City from Gardner is the only road kept open no matter how much snow falls. How would you like that for being out in the wild during winter months?

So watch the website for updates and make some plans to explore the first National Park in the World. Yellowstone Park.

Thanks
