

SUMMARY & INTENTION

The intention of this smallmouth outing is to come together as fellow anglers and enjoy a few days together fishing for 'smallies' and enjoying the camaraderie.

Most of us on this outing are seasoned anglers, and know these waters. We understand the techniques that are used to catch these fish in the various spawning stages. There are a few newbies to this outing and a few that have had some struggles in the past at catching these 'smallies' in Port Austin. There is a definite technique to learn in fishing for them, at this time of the year and place. I am looking for volunteers to pair up with these anglers to show the techniques that you have learned, so everyone can have a great and successful fishing experience. Once they understand and get the feel and start catching fish, the confidence level rises and they are on their way to a fun and successful weekend of fishing.
