

## **Boobie Eyed Bug**

Use what you want.

**Hooks:** size 12-10 hooks or even eight

**Body:** marabou and some sparkling thread or dubbing

**Eye:** [Rainy's large foam Boobie Eyes](#) in chartreuse + 4mm or 1/8 inch eyes

**Misc:** Zap-a-gap or Super Glue

I ordered [Hairline 3D Adhesive Holographic Eyes](#), but will still need Zap-a-Gap to glue them onto the foam boobie eyes. This fly measures approximately 1 inch long.

Fish it in the surface film, where it gets amazing action in the water. Use sink tip leader. Add split shot for more depth.

**Target:** Pumpkin Seeds, Bluegill, and even Smallmouth Bass
